

36-Tube Standard Solar Water Heater

SWHG450-36

Large Gravity-Type Evacuated-Tube Solar Water Heater

The SWHG450-36 is the largest model in this standard range, using 36 evacuated glass tubes measuring 58 mm × 1,800 mm. Its direct-heating thermosiphon design provides extensive solar collection area and stores the heated water in an integrated gravity tank.

Applications

Suitable for large residences, farms, hotels, schools, worker accommodation, restaurants and commercial sites with high daily hot-water requirements.
