

10-Tube Standard Solar Water Heater

SWHG450-10

Compact Gravity-Type Evacuated-Tube Solar Water Heater

The SWHG450-10 is a standard gravity-type solar water heater equipped with 10 evacuated glass tubes measuring 58 mm × 1,800 mm. The vacuum tubes absorb solar energy and transfer heat directly to the integrated storage tank, providing simple and reliable solar hot-water production without circulation pumps.

Applications

Suitable for smaller households, staff accommodation, guest rooms, farms and other locations requiring an economical solar hot-water system.
